13<sup>th</sup> November 2019- Main EXPO

# Introduction

Following 8 very successful years of producing the Expo event in London, we couldn't be happier with the support and response we received from our international sponsors, supporting organisations, delegates and individual volunteers. In November 2018, 1300 delegates attended Expo UK. We launched our Project Controls Awards dinner event on the previous evening to an enthusiastic audience and congratulated 4 worthy winners.

We have delivered another major step towards professionalising project controls and bringing the project controls community together in a networking environment for knowledge sharing. Everyone can share its benefits for effective project delivery globally. Joint ventures are burgeoning in the construction industry, in particular. With ambitious infrastructure projects across the world, it is our intention to bring professionals, apprentices and professional organisations together to benefit the industry and to understand the skillsets that are required for future generations to deliver.

Technology now plays a large part in everyday working and we have innovative technology providers showcasing new opportunities with machine learning, AI and extensive use of data for predictive analysis.

It's a very exciting time and the positive feedback we received both before and after the event has convinced us that Project Controls EXPO 2019 will be bigger and more comprehensive.

We were overwhelmed by the success of Project Controls Expo Australia 2018 in Melbourne at the iconic "G". A fabulous location for our first professional conference in Australia. We aim to push the boundaries in Melbourne in 2019 and will also be announcing Expo in Kuala Lumpur for February 2020.

Please join us on this journey. We have many organisations of all sizes, global and local that will give Project Controls EXPO UK a gold star recommendation.

Come to Arsenal Emirates Stadium for our exciting Project Controls Awards evening on 12th November and the main EXPO event on 13th November.
