Project Management Development – the Benefits

- Motivated & informed staff
- Measurable & documented achievement
- Awareness of standards
- Common professional language
- Good practice as standard
- Improved employer, client and supplier relationships
- Professional recognition
- Skilled, committed, project professionals

Development Maturity Model - Bersin

- ❑ 65% organisations still at Levels 1 and 2
- ❑ Research shows significant improvements in staff retention, alignment and business engagement by moving up the steps

Level 4 – Strategic Development
Championed by most senior leadership, fully integrated

Level 3 – Focused Development
Culture setting; future focused; developing the organisation

Level 2 – Structured Training
Core competencies; well defined curriculum; developing individuals

Level 1 – Inconsistent Training
Content available; limited development process; seen as a benefit to employees

Best in Class Learning

1. L&D strategy has buy in, support and ownership from most senior management
2. L&D strategy is clearly aligned with the organisation's overall strategic plan
3. Active promotion of learning to those who will benefit from participation
4. Integration of learning with both performance management and talent management/assessment
5. True mix of learning methodologies deployed

Chief Learning Officer Magazine, 2009

Project Management Development

PM Development – parting messages

For employers – the benefits of having a professional project control community are obvious

For employees –

- Recognise what you have achieved and document it
- Don't solely chase qualifications, balance it with experience
- If you can't manage your career development, why should your employer let you manage their project? So take control
- Changes are continuous so keep informed, stay networked and keep pace with change.
- Don't ever feel that your organisation is holding you back. Develop yourself & take your organisation forward

Any Questions ?
