

Project Controls
E X P O

Project Controls Expo – 17th Nov 2017
Emirates Stadium, London

**A review of whether interdependency exists
in effective Project Control Methods and
project performance**

About the Speaker

Michael Halliday is a qualified Quantity Surveyor with over 25 years of construction industry experience as a commercial manager, quantity surveyor and contracts administrator, delivering a broad range of contracts for a varied UK and international client base spanning oil and gas, power and utilities, infrastructure, MEICA, industrial, Civil and buildings sectors.

He holds a Master's degree in Construction Law and specialises in dispute resolution services including the preparation, negotiation, settlement and /or rebuttal of claims for disruption and prolongation.

Michael is President for the UK region of the AACEi and a Review Examiner for the Chartered Institute of Civil Engineering Surveyors

About the Topic

A presentation of case studies demonstrating the challenges faced and lessons learnt when implementing project control systems as well as some qualified examples of applied systems, or lack of systems and how this may affect performance and efficiency of a Project.
