- | | |
|---|---|
|  Earned Value Management |  Asset Care |
|  NEC4 Contract Management |  Strategic Risk |
|  Cost Management |  Project Controls |

Hosting

RPC's Hosting service is a complete Oracle Primavera P6 environment based on the market-leading Oracle Cloud Infrastructure platform, offering faster P6 implementation than ever before, on proven Cloud Services technology.

RPC has been providing effective project controls solutions since 1992, and helps organisations to create a holistic environment in which projects are routinely delivered successfully – on time and within budget – and expected returns on investment are fully realised.

Our comprehensive portfolio of skills, services and solutions creates the ideal platform to support the complete project lifecycle

- **Project controls expertise and processes**
- **Software solutions**
- **Consultancy and education**
- **Hosting**
- **Application support**
